September 2023

Dear Parents, Careers, and Students

Duke of Edinburgh Award 2023-2024

Thank you for showing an interest in completing the Duke of Edinburgh Award this academic year. Blessed Hugh Faringdon Catholic School has been running the Award for many years, it is always a great success, and we would love for you to join us.

In completing the Award students develop the skills and attitudes they need to become more rounded, confident people. This is good for everyday life and are qualities that colleges, universities and employers are attracted to, investing in their future. Areas of development include:

- Self-belief and self-confidence
- A sense of identity
- Initiative and a sense of responsibility
- A real awareness of their strengths
- New talents and abilities
- The ability to plan and use time effectively.
- Learning from and giving to others in the community
- Forming new friendships
- Problem solving, presentation and communication skills.
- Leadership and teamworking skills

You'll also make a difference to other people's lives and your community, be fitter and healthier, make new friends and have memories to last you a lifetime.

Our participants also tell us that doing their Award gives them character traits like confidence and resilience, that can boost their mental health and wellbeing and help them face and overcome personal challenges.

To achieve an Award young people must show persistence, commitment and personal development. It's not something that can be achieved through a short burst of enthusiasm in one weekend. However, they may fit their Award activities around their school, college or work commitments, carrying them out in their own personal time. They can be done partly as one of a range of options in supported/core time or as part of an after-school or lunchtime programme.

They may choose to use something they are already doing as an Award activity – or go for something completely new. Each progressive level demands more time and commitment from participants. There is no real time limit when it comes to completing an Award programme. As long as they are under 25 years old when they complete all their activities in their programme, they're free to work at a pace that they're comfortable with to achieve their Award. This chart shows the minimum time participants must do their programmes for. Whilst timescales are given in months, participants need to give a regular commitment averaging at least an hour a week during this time.
