Spotlight Talks: Inspiring Careers Excellence will build on the success of the first event, with more valuable insights into a range of sectors to inspire your students to explore technical career routes and apprenticeships. Highlights include talks from:

- A technical apprentice at the Science Council about what it is like to work within the sciences
- The British Esports Association on the exciting vocational career pathways available
- Performance Coach Nikita about the difference she is making as a Neonatal Nurse in the NHS

1st - 6th March 2021

With National Careers Week and British Science Week quickly approaching, we would like to invite you to our **free** virtual *Pathways into STEM* career chats activity on **Wednesday 3rd March at 10.30 - 11.30 am.**

1st - 6th March 2021

Inspiring the Future: Question Time

Please type the questions into the questions box. What would you like to know?

Example questions:

- What subjects did you study in school that you found useful for your role?
- Do you think it's important to work hard at school? If so, why?
- What experiences have helped you to make decisions about your future?
- What can I do now to prepare me for this kind of career? What education/ training do you need?
- What skills do you need to do your job?
- What do you enjoy most about your job? What do you find most challenging?
- What does a typical day/week look like at work?
- Why did you choose this career?
- Have you done different kinds of jobs before or is this the only sector in which you have worked?

www.inspiringthefuture.org

This virtual interactive session is aimed at **post-16**, and will feature a **panel of STEM employers** talking about their **job roles**, different **pathways into STEM** and the **skills** they have developed along the way. Whether joining from home or from the classroom, students can ask questions via the **secure 'chat box'** live to the employers.

Monday 1st March - Saturday 6th March

Loughborough University are hosting a week dedicated to providing information, advice and guidance for families who are looking to support their children and understand the journey behind researching and applying for universities.

It will include a mixture of live and online resources, ranging from 'How to help your child choose the right GCSEs' all the way to 'How to prepare your child for university'.

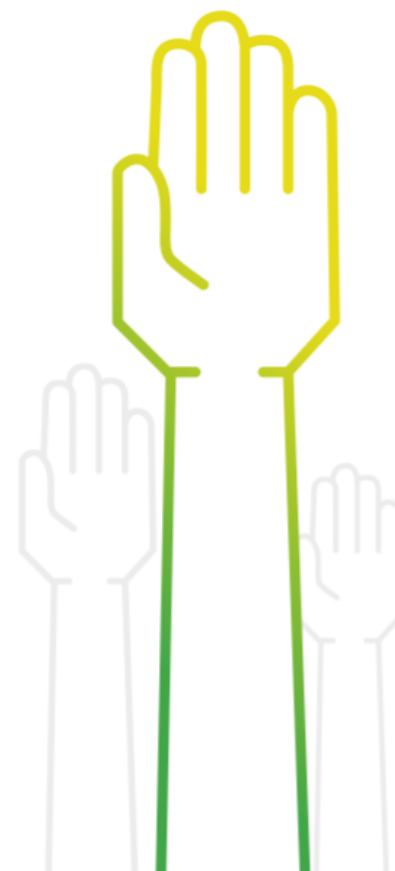

Attendees will also have an opportunity to book on to a series of Q&A sessions to speak to members of staff and ask any further questions they may have about university and more.

Spotlight on Engineering

FREE webinar for parents and careers advisers on engineering roles in the Merchant Navy on board ships on **#TidalTuesday 2 March 2021 15:30-16:30**

#TidalTuesday 2 March 2021 15:30-16:30

Ships come in all shapes and sizes, each with different purposes. All require an engineering team to ensure all the systems and engines run smoothly, from ventilation systems to pumps, power generation to refrigerators. After all, at sea, if something goes wrong you can't just pull in to the nearest garage. It will be up to the engineering team to diagnose the fault, get the equipment dismantled, repaired, reassembled and back into operation.

Careers at Sea is here to promote the many career opportunities in the Merchant Navy, from cadet to captain, apprentice to Chief Engineer and so many more. In this session, we will be focussing on the Engineering roles on board ship – maintaining and monitoring ship mechanics, from their immense engines to essential water and heating systems, as well as more complex technical electric equipment.

Thinking about a museum career? Find out what people do & how they got there with help from the National Science and Media Museum

About this Event

This hour long session is aimed at years 10 to 13 .

If you want to know more about what it's like to work in a museum (especially one linked to science) and the different roles that exist then please join us on the 5th March.

- Find out what a Visitor Insight Officer does.
- How did the Head of Learning start out?
- What is a curatorial role all about?
- What is an Interpretation Manager?
- Why does a museum have a photographer?
- Do you need science qualifications to work in a science museum?
- Do you have to have a history degree to work in a museum?

You will meet a number of different colleagues from the museum. Find out what they do and how they started on their career paths!

National Careers Week 2021

1st - 6th March 2021

2021 marks the 10th National Careers Week and this year we are working together to Empower Positive Change through Careers Education!

Complete our NHS activity below, take a look around [Careerpilot](#) and [complete our survey!](#)

The banner features a computer monitor displaying the Careerpilot logo and the text "Empowering Positive Change through Careers Education." Below the monitor, the NHS logo is prominently displayed within a yellow-bordered box. To the right of the NHS logo, the text "March 1st to 6th" is written in yellow. At the bottom right, a yellow text box contains the message: "The NHS has never been more important. Find out more about the jobs and check if YOUR skills suit an NHS job!". The banner also includes the hashtag #NCW2021, the National Careers Week 2021 logo, and the NatWest Group logo.

Pathways to Property: Discover where a career in property could take you.

Join this webinar to find out more about careers in property.

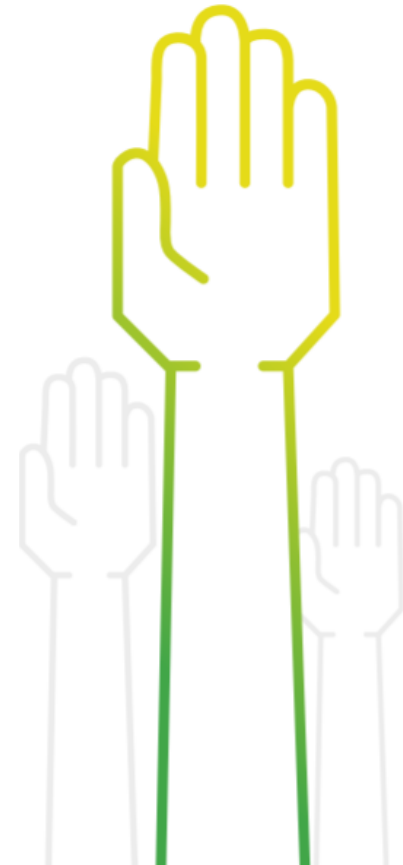

Every day we are influenced by the built environment around us – shops, offices, industrial buildings, houses and the surrounding countryside all have an impact on the way we live. Did you ever wonder how these properties are developed, whether the buildings going up in our cities are sustainable or how much they are worth?

During this short webinar, you will get the chance to gain a better understanding of the property industry and the potential career paths it has to offer. Hear from an industry professional about their experience working in property, learn about how the Pathways to Property program can support you into the industry, and join an interactive Q&A session to ask property-related questions that may help guide future career choices.

Why data analytics matters – whatever career you want

Data is the future. It underpins the technologies – such as artificial intelligence and machine learning – that are reshaping every sector, from engineering and finance to healthcare and public policy.

This workshop is an excellent way to find out more about this fascinating and increasingly important field. It explains how learning the fundamentals of data analytics will add to your skills and give you a real edge when it comes to university, job, intern and apprenticeship applications. Taught by an industry expert and Silicon Valley executive, the workshop gives you a flavour for our week-long Data Analytics course, offering an inspiring introduction as to why data really matters to your career.

Spring Virtual Fair

Wednesday 17th March 2021 -

Event Time: 12.00 - 18.00

Join us for our incredibly special online and interactive UK University Search Virtual Fair. The event will feature universities and colleges from across the UK as well as ten live webinars on essential topics such as UCAS personal statements, clearing, and student finance.

We have designed an amazing online experience to allow you to explore a huge range of post-18 options. Our Virtual Fair will feature a wide range of exhibiting universities including Russell Group, red brick, modern and specialist institutions. This incredible event will enable you to visit exhibition stands and chat to representatives, view information and videos, download prospectuses and take part in live webinars in the virtual auditorium.

The event is completely free of charge to students, parents and teachers. This fair is designed to provide you with everything you need to make the right decisions. We look forward to welcoming you to the event.

Preparing for your higher education journey: Student finance & budgeting

Thu, Mar 11, 2021 6:00 PM - 7:00 PM GMT

[Show in My Time Zone](#)

[Click Here](#)

Not sure how the student finance system works for UK students? Worried about how much university will cost? Have other questions that you'd like to ask university staff? In this session you can find out more about how student finance works, including the UK loan system, applying, and repayments. You'll also find out about extra funding and how to budget at university, hearing from higher education professionals themselves from eight different universities.

This session is aimed at UK students. The session will begin with a short 5-10 minute presentation followed by a Q&A for the remaining time.

This session takes place live so you will have the opportunity to ask questions throughout. However, if you are unable to attend at the scheduled time, if you register for the webinar, you will receive the recording via email.

Information for attendees: You will join these webinars without video or audio, and your name will not be seen by other attendees. Any questions you submit will not be seen by other attendees, although we may read them out to answer (your name will remain private). The session is primarily aimed at sixth form and college students, however, all are welcome to attend.

Presented by recruitment and outreach staff from University of Reading, University of Leicester, Aston University, University of Hertfordshire, University of South Wales, University of Wolverhampton, University College Birmingham, and Newman University.

Discovery Week

1 March 2021 – 15 March 2021

With our range of interactive workshops, discover where studying different subjects at university could take you!

Learn what it takes to build a skyscraper, solve a humanitarian crisis, or become a master encrypter. It's time to take your knowledge to the next level.

In each of our subject tasters you will:

- Take part in challenge activities with equipment you can find around the house
- Find out more about what it's like to study the subject at university
- Learn more about what our students get up to studying the subjects at degree level
- Find out where studying the subjects could take you in the future

Discovery Week will launch in March to coincide with National Careers Week and workshops will be available on demand between 1-15 March 2021.
