Global Goals Competition #GSLGoals

Global Goals Competition

Design and deliver a project in your local community that will get the world closer to achieving the Global Goals. Consider which of the 17 Goals you feel passionate about or are most relevant to your community.

What problems can you identify in your area? How can your team work together to fix it?

There's great potential for you to make a positive social change and the sooner you get started the bigger the impact.

THE GLOBAL GOALS
For Sustainable Development

What are the United Nations' Global Goals

“The biggest attempt in the history of the human race to make the world a better place”

The 17 Sustainable Development Goals were agreed by world leaders in 2015 to create a better world by 2030. The Goals run across countries, religions, politics, conflicts, and generations. It is now up to all of us, governments, businesses, civil society and the general public to work together to build a better future for everyone.
